### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: a method of modifying a subterranean formation comprising a polyhydroxyetheramine which is a product of an alkylene oxide amine and a diglycidyl ether of polyhydric phenols is not suggested nor disclosed in the prior art of record.
2. Closest prior art is as set forth in the action dated 2/6/08, Treybig (US 6569983) discloses the use of a polyhydroxyetheramine but not the diglycidyl ether of a polyhydric phenols. Marten (US 5977286) discloses modified epoxy resins however the compositions and reactions taught therein are drawn to a product which is further cured or crosslinked for use in paints and adhesives, wherein Treybig is drawn to an additive which is not further cured or crosslinked for treating subterranean formations. The references are not analogous art and the rejection is withdrawn. Since said rejection is withdrawn the remaining rejections over Treybig and Marten in further view of Gupta (US 2003/0008781), Soula (US 4417048) and Bruhnke (US 5773405) are also withdrawn. Rejection over claims 23-25, 29-32 is overcome since said claims are now cancelled. The double patenting rejection of Treybig and Marten is withdrawn for the reasons set forth above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
